

# Drywall Point-up

**THIS ENTITLES BEARER TO ONE OCCURRENCE OF DRYWALL  
POINT-UP DURING FIRST YEAR OF OCCUPANCY**

Presented by

**Pulte Homes**

**3805 Crestwood Parkway**

**Suite 500**

**Duluth, GA 30096**

*Note: Drywall point-up is defined as the skimming and sanding of drywall surfaces which have changed, due to normal shrinkage and settlement, associated with wood frame construction. This includes nail pops, cracks at joints, or bulging seams. Reoccurrence of these conditions could develop, if addressed prior to completion of shrinkage and settlement cycle. This process has normally occurred by the 11 month service opportunity.*
